Ordinance Review

Zoning & Subdivision/Land Development Ordinance Amendments –

There was considerable discussion about the process by which the Planning Commission should deliberate about and recommend the ordinance amendments to the Board of Supervisors. Alvin Miller raised concerns that the PC had not had its required 30 days to review the proposed changes. It was pointed out to him that not only had the PC been participants in the monthly workshops for the duration of the deliberations, but also that the PC had received the proposed changes at its last meeting along with David Sweet's memo of June 14, 2004. In addition, the PC had received the comments from the Chester County Planning Commission at its June meeting.

Alvin Miller moved —assuming that as of this day the PC has all necessary documents in hand—that we advertise a special Planning Commission meeting within the next 30 days at which to discuss the amendments and make our

recommendation to the Board of Supervisors. The motion died for lack of a second.

Tom Olivieri made a motion that the PC recommend approval of the language of the proposed zoning changes, with reservations and considerations for changes in the map. Seconded by Joe Bauer. The motion carried. Alvin Miller voted no.

Planning Commission Members

Percy Reynolds – Is open space is dedeed to township? This is an issue that needs to be closely watched.

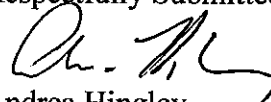

Alvin Miller – Drip irrigation question directed generally to Yerkes Associates, Inc.: If system fails, is it a separate system? Who is liable? Letter to Sewer Authority - to be invited to next meeting if possible. W. Pikeland just approved an ordinance to require a bond for satellite sewer systems. Motion by Thom Olivieri to post a bond to use a satellite system so township is not held responsible, seconded by Vice-Chairman. Discussion by Percy Reynolds about who puts money up, and that there is no doubling up of monies, whomever it is dedicated to puts up the money. Motion carries. Vice-Chairman issues of I-1 area of Mt. Pleasant, Waterway and RR tracks would better serve community as I-2.

Recognition of visitors:

Question of bond issue from guest Clyde Cameron. It was clarified that it is not an issue for individual lots, only for subdivisions. Question from another guest as to process for public hearing, clarification from board that it is trying to find the correct balance for township and its residence by these changes. Clyde Cameron had question about subdivisions and approval from PC board, the PC board approved his subdivision back in May, the issue of letter from DEP and having another seepage location was addressed. He was told that the county supercedes the township, and once everything is approved by the county then it goes to BOS for approval.

Being no further business, on motion by the Chairperson, seconded by the Vice-Chairman, the meeting was adjourned at 8:30 p.m.

Respectfully Submitted,

Andrea Hingley
