INSTRUCTIONS FOR FILLING OUT EROSION & SEDIMENTATION PERMIT

- Fields highlighted in yellow **MUST** be filled out by owner/applicant before application will be considered.
- Two copies of an Erosion & Sedimentation plan **MUST** accompany the permit application before application will be considered. The following specifications are required:
 1. A property sketch (drawn to approximate scale) of the lot on which the work is to be performed.
 4. Location of existing and proposed man-made features of importance to the proposed development (i.e., wells, septic systems, cuts and fills, buildings, driveways, etc.).
 5. Description and location of soil erosion and sediment control measures in accordance with standards and specifications of the Chester County Conservation District. At minimum it **MUST** include:
 - a. A downstream E&S control (sediment trap, silt fence, etc.) designed to filter sediment from the runoff before leaving the lot.
 - b. Underground infiltration system is required for runoff from new structure.
 - c. A final grading, seeding and mulching design.
